Salisbury Wins, Glasgow Loses

Hon. U. S. Hall and family left Monday for Salisbury, their new home. The resignation of Mr. Hall as President of Pritchett College, and his acceptance of the position of Superintendent of the Salisbury High School is universally admitted to be a great loss to Pritchett College, and this community.

A former student of Pritchett College, who lately entered one of the large Eastern Colleges, said, "After contrasting Mr. Hall with any of the other teachers, with whom I have been associated, I am convinced that neither his pupils, nor the community, has ever appreciated Mr. Hall as an instructor as he has deserved. I learned more, in one term, under his teaching, than I could in a year from any other instructor I have ever known."

This former pupil of Mr. Hall's but reflects the judgment of all who have had the opportunity to judge of his ability, by contrasting him with the instructors in other colleges.

Mr. Hall and his family are well known in Salisbury, but after having lived there for a term, the people at large, and the patrons of the school, will better appreciate the great good fortune that has come their way, in securing him as the principal of their school.

We believe that no family have ever left Glasgow whose going has been so sincerely regretted by so large a number of our very best people. We shall miss him as an instructor, and citizen—the place his family filled, socially, cannot be filled.

What we have written here voices, not only our opinion, but that of the very best people who know him. So hoping that their absence may be but a short one, we will not say goodbye, but "Auf Wiedersehn."—Glasgow Missourian.

Many Thousand Shingles Shipped By Parcel Post

A western lumber company made exceptional use of the parcel-post system not long ago when it shipped a consignment of 30,000 shingles through the mails. The destination of the shingles was 52 miles from the shipping point, and the postal charges were less than \$50. Although a shipment of this size is uncommon, the parcel post is frequently used in the western states to send supplies to remote places in the stock raising country as well as to the mines, many of which are far from the beaten paths of travel, and so have no adequate railway facilities. The lot of shingles referred to went via a star rural-delivery route.—From the August Mechanics Magazine.

Taxation

The Financing of the War will fall in part upon every citizen of the United States.

Food Control

Governmental regulation of production and distribution of meats, grains and other food-stuffs is being seriously discussed.

Army Raising

Under the draft several calls for troops may be expected. If they come married men cannot escape service.

New phases of these and other All-Important Subjects are brought to light daily.

Doing Good

Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Delmeny, Sask., says of it, "I have used Chamberlain's Colic and Diarrhoea remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."

Final Settlement Notice

Watch !!!

For some years, various and sundry concerns have been making beverages which are grouped under the general description of "near-beer." Then came Bevo—a cereal beverage, not a "near-beer," but offered purely for what it is—a delightful, wholesome and nutritious drink. Bevo met with instant and complete success. A whirlwind success.

Owing to Bevo's popularity, some beverages are now being offered in a way to make the appearance of the package look as much like the Bevo bottle as possible. The intention is obvious. But you don't taste the shape of a bottle—it's the flavor of the contents of the bottle that you must depend upon for enjoyment.

Then beware of impersonators—don't be satisfied to try to identify Bevo by the shape of the bottle alone—

Look !!

There are these certain identification marks that are your protection against imitations. Not just imitations of the product, remember—but those more insinuating imitations which try to deceive you by putting an old failure into a bottle similar to a new success. So look for these unmistakable marks of the genuine Bevo—demand that the bottle be opened in front of you, then—

Look for the Seal

See that it is unbroken covering the Crown Top
Look at the Crown Top and see that it bears the Fox
Be sure the Bottle bears this label

Listen !

Bevo is a pure drink. This means more than that it contains pure ingredients—it means that though you might often well be afraid of possible germs in milk or water, Bevo, being a pasteurized product in sterilized bottles, is absolutely free from bacteria.

Bevo is a nutritive beverage—the fine cereals from which it is made give it this quality.

Bevo is a delightful and refreshing soft drink—unlike any you have ever tasted—indeed a Triumph in Soft Drinks.

You can't get these good qualities in anything but Bevo—demand the genuine.

You will find Bevo at inns, cafeterias, restaurants, groceries, department and drug stores, soda fountains, dining cars, steamships, canteens, soldiers' homes, navy, and other places where refreshing beverages are sold. Your grocer will supply you by the case. Bevo is sold in bottles only—and is bottled exclusively by
